-------------------	----------	----------------	----------------	------------------	--------------	-------------

Amateurs: Since amateurs do not earn actual Masters money, there will be money applied for the pool depending on their finish. The low amateur earns \$50k whether they make the cut or not. If tied (both amateurs earn the 50k). Any amateur that makes the cut will earn an additional 50k. Any amateur to finish in the top 25 earns 100k. Any amateur that ends up in top 10 earns 250k. (The most total money any amateur can make is 350k).
Money Won: Golfer has to make the cut to have any money won applied to the pool. Often, players get a participation payout. It doesn't apply here.
