Past Performance Pointers

TODAY'S WEIGHT

With the exception of assigned-weight handicap races, weights are computed according to the conditions of the race. Weight includes the rider and his equipment, saddle, lead pads, etc., and takes into account the apprentice allowance of pounds claimed. It does not include a jockey's overweight, which is announced by track officials prior to the race. The number of pounds claimed as an apprentice allowance is shown by a superior (small) figure to the right of the weight.
